It appears there are only three cases in the Hygeia from the Orontes, and that there are nine cases in the Lazarette on Stonecutter's Island under observation. As yet the disease has not been developed in any of the latter cases. In the camp of the Shropshire Regiment at Kowloon everything seems to be going on well. With reference to the nationality of the Empress Dowsger we are told that there was a story current among the Chinese in Tientsin that she is not a Maucha at all, but a Cantonese who was adopted when quite young by a Manchu family in Canton; and her liberality and the vigour of her intellect and breadth of her views are said to be due to this In feature, according to Chên Pak-nam, who died a director of the China Merchants, she is much more like a foreigner than a Chinese, with a prominent nose and very piercing eyes: he was never tired of saying that she is " very clever. all same foreign man, very quick eye see everything."-Shanghai Mercury.

THE police in Shanghai have made a smart capture in getting back three bars of gold worth \$1,050 each, which were lately stolen off the Yelsin in Chemulpo. Six bars of the precious metal were there brought on board by an individual who must have been the most careless of mortals, for he appears to have gone on shore again immediately without putting the gold into safe keeping. Someone else, however, appears to have been much more careful than the owner of the gold, for no sooner was the owner's back turned then a thief succeeded in carrying off the six bars. The police believe that he must have given one bar to a sailor on the vessel to 'shut his mouth,' for they got a bar amongst the effects of the men when the versel last arrived in Shanghai. A detective was also sent from here to Chefoo where two more bars were recovered. But the other three bars have not been recovered yet .- Mercury.

IT RECALLS THE BLIZZ RD. In Murch, 1888, the great blizzard in America almost extinguished the city of New York. The like of it was never before seen. The snow completely stopped all local traffic. Not a horse or a wheel could move. All the telegraph lines leiding into the city were prostrated, and for two or three days the people of Boston and New York communicated with each other by way of London by means of the Atlantic cables. Thus messages intended for persons three hundred miles distant were sent six thousand miles, crossing the

No mutter what I ate, however light, it disagreed with me and gave me pain. I had follows of the chest, and pain at my ade, with a miserable low, dull feeling. From time to time I consulted a doctor who gave me medicines, but they did very little good. The doctor said that the coating of my stomach was disordered and the mucous membrane was inflamed. Having studied the practice of herbs for many years, I was in the habit of treating people for erysipeles and other complaints, and was frequently consulted by people in the district, so effer my remarkable cure, 133 APARATIVE CHINESE FAMILY LAW I was so impressed with the merits of Syrup, that I procured a large supply of the medicine, and recommend it to all who were suffering, and people came from far and near for it. I may mention that on a Sunday my house was beseiged by miners from Coal Pit Heath, and others from a distance. On every hand I heard nothing but also loudest praise and of the cures it effected, and the fame of this medicine was spread throughout the West of England with no other advertising than one party telling another of the benefit they-had derived from this wonderful medicine. I wish every one to know of this, and if by publishing this statement it will help others who may be suffering as I was, it. will afford me pleasure.'

The letter from which the foregoing is an extract is signed Moses Godwin, Old Sodbury (Sodbury), Glos, and is dat di April 9th, 1891. He is a farmer. The reader will notice that while the headquarters for the sale of Mother Beigel's Syrup is universally known to be in London, by a strange chance Mr God-win a first information concerning it came from America, three thousand miles away, winteh recals the incident of the American blizzaril above narrated, and also shows that the fane and usefulness of this medicine extends to all divilised countries.
